In 2020, we were hit with a critical event, i.e., COVID-19 pandemic consequently causing a severe impact on the global economy and it is not yet clear that the pandemic will stop and when will there be an effective vaccine to stop the spread of the COVID-19. As a result, Thailand's economy in the overall picture in 2020, was way much lower than what the government had estimated. Our company was also affected by the government's curfew, the blocking of the admissions of tourists into the country including the closures of entertainment venues and requests for co-operations to people to adapt themselves to the new normal way of social distancing eventually causing

the changes in food and beverage consumption habits and resulting in them to spend their times more at homes, stop their social gatherings, turn to online purchase order system consequently making the overall beverage consumption rates declined. Such action measure has still remained in force and been adjusted to suit the changing circumstances in order to enable the Company to continue to conduct business operations as usual and make the Company's business partners confident that they would receive good and quality products in accordance with their requirements.
