

Announcement No. 76 /2024

Subject: Energy Conservation Policy

Crown Seal Public Company Limited is a designated controlled factory under the Royal Decree on Designation of Controlled Factories B.E. 2545 (2002) and is required to comply with the Energy Conservation Promotion Act (No. 2) B.E. 2550 (2007) to regulate and reduce energy consumption.

In order to ensure continuous effectiveness in energy conservation, the Company hereby establishes the Energy Conservation Policy to encourage participation from all employees, considering it as part of their responsibilities in daily operations, as follows:

1. To implement and develop an appropriate energy management system by integrating energy conservation into operational activities of all departments, in compliance with applicable laws and other relevant requirements.
2. To continuously improve energy efficiency within the organization, aligned with operational processes, applied technologies, and best practices.
3. To establish annual energy conservation plans and targets and communicate them effectively to all employees to ensure proper understanding and implementation.
4. The Company considers energy conservation as a responsibility of all executives and employees at every level, who must cooperate in implementing the prescribed measures, monitoring performance, and reporting to the Energy Management Committee.
5. The Company shall support the use of alternative energy and provide necessary resources, including personnel, budget, working time, training, and opportunities for employee participation in proposing ideas for improving energy performance.
6. Executives and the Energy Management Committee shall review and continuously improve the energy policy, targets, and action plans on an annual basis.

This announcement is hereby issued for acknowledgment and strict compliance by all concerned.

Announced on 28th June 2024

(Mr. Opart Dhanvarjor)

President
